

**AMENDMENTS TO THE SPECIFICATION**

Please replace paragraph [0050] with the following:

~~FIG.~~ FIG. 17 is an inflatable embodiment.

Please replace paragraph [0109] with the following:

Shown in FIG. 26A and 26B is a canvas structure 1600. The metal grid frames 1401 (not shown) are covered with canvas 1402. Panel covers 845 are attached at the corners of the metal grid frame 1401. A structure constructed of attached canvas covered panels 1400. Shelves 1610 may be attached between panels 1400. The shelves may be vertical or horizontal and may be sewn on 1615, or affixed with glue, adhesive, Velcro, snaps or by other suitable means.

Please replace paragraph [0111] with the following:

Shown in FIG. 28A-28C is a canvas cube 1800 constructed of metal grids 1810 covered with canvas 1402 which may be sewn on 1815 or connected with glue, adhesive, Velcro, snaps or by other suitable means. Grid connectors 1820 are used, in a known fashion, to connect the canvas covered metal frames 1810 together at the corners 1805. Metal frames, absent a grid, may be substituted for the metal grid frame 1810 without departing from the scope of the invention.
